THE STORY**

"When I first heard that we were going to get something to eat at school, I couldn't imagine how it would be possible to provide all the children with food every day.

But now it's done, it's incredible! I really like eating at school because I can eat with my friends and the lunch at school tastes really good.

It helps me to study and to concentrate. I hope that this school feeding programme will continue forever.

With the help of many supporters, the school feeding initiative Mary's Meals feeds more than **3 million children** in around **5,000 schools** in **16 of the world's poorest countries**.

For most of the children, the school meals provided by Mary's Meals are the only food they eat each day. They enable them to attend school and acquire an education. Today, **food and education** are seen as the key to escaping the spiral of poverty and hunger. Feeding a child costs **11 cents** per meal, or **22 euros** for an entire school year. Donations are used to buy staple foods locally and volunteers, primarily the children's mothers, prepare them into a nutritious porridge.

Feed a school for an entire year!

A school kitchen sponsorship means the promise of a daily meal for the children of an entire school and thus ensures that they receive an education. The annual costs for feeding a school depend on the number of pupils. For a school with around 300 pupils, the annual food costs amount to around 6600 euros.

22 EURO = MEALS FOR A WHOLE SCHOOL YEAR
Donations to Mary's Meals are tax-deductible in Austria.
